ATANDA ISMAIL ABIDEMI
software engineer

📞 **+2349032909190**

✉️ **atanda.ismail.abidemi@gmail.com**

Results-oriented engineer with a meticulous approach to software development, driven by a passion for creating cutting-edge solutions. Committed to designing and implementing innovative software using the state-of-art-technologies and best practices

TECHNICAL SKILLS

- JavaScript: ReactJs, NextJs, Redux, VueJs, NuxtJs, Vuex
- Php: Composer, Laravel
- Python: FastAPI, Django, DRF, Flask, Pandas, Matplotlib,numpy, Celery, Selenium
- Databases: PostgreSQL, MySQL, SQLite, MongoDB, Redis
- DevOps: Docker & Docker Compose, Kubernetes, Git, Github, CircleCI, Github Actions, Jenkins, Heroku, AWS (S3, EC2, SNS, SQS), Microservices
- Testing: Postman, Unit test, Pytest, Gatlin(end-2-end), Locust(Load testing)

Work History

November 2023 - Engineer
Match 2024   Total Energies(contract staff)

- Process of filling station license
- Analysis of document required by department of petroleum resources
- know the standard of station photograph required by department of of petroleum resources
- Applying for all licenses to operate (new) application phase for filling stations such as
- Suitability
- Approval to construct
- Pressure test
- Tank burial
- Tank leak test
- Tank calibration
- License to operate take over

May 2022 - Software Engineer
Sep 2023   Indeed.com, USA (Remote)

- Designed and built microservices APIs using Expressjs framework in an Agile environment that was used to support and develop web and mobile applications.
- Improved Double-Check application performance by adding a celery task queue to handle background jobs, resulting in improved application performance.
- Set up an Amazon Web Services (AWS) Simple Storage Service (S3) bucket for managing multimedia files and assets.

Aug 2020 - Software Engineer
Aug 2021   Appclick ict academy - Ibadan, Nigeria

- Led a development team of five, including a QA engineer, to build DecaAid. An internal tool used in teaching and learning.
- Implemented DecaAid authentication API services to multiple websites and mobile applications, ensuring seamless integration with user accounts, and securing sensitive personal identifying information.
- Trained and mentored more than 15 software engineers, developing comprehensive training manuals and spearheading hands-on workshops for new hires.

Education

Aug 2019 - Diploma in Software Engineering: Software Engineering
Feb 2020   Appclick ict academy - Ibadan, Nigeria

Jul 2011 - Higher National diploma: banking and finance
Aug 2014 Federal polytechnic ede osun state, Nigeria
Grade: upper credit

Jul 2007 - National diploma: banking and finance
Aug 2010 Federal polytechnic ede osun state, Nigeria
Grade: distinction
